We endeavour to minimize these impacts on the environment in which we operate. The hotel will protect the ecological environment in its surroundings.

The Chelsea Hotel, Toronto's vision is to become a role model amongst hospitality operators for environmental impact, awareness and reduction. The hotel will engage all its stakeholders – guests, colleagues, owners, community partners, major suppliers and contractors – in adopting environmental best practices.

We are committed to the criteria provided by the EarthCheck (www.earthcheck.org) Company Standard and undertake independent auditing, monitoring and annual benchmarking exercises, living our commitment to continually improve our environmental and social sustainability performance. We will comply with applicable environmental regulatory requirements at local and national levels.
